

MLK AND CARNEGIE GREEN INFRASTRUCTURE GRANT

Cleveland, OH

Summary

In 2016, University Circle, Inc. was awarded a GI Grant in the amount of \$127,900 to reduce imperviousness and construct a bioretention cell.

This highly visible, traffic-calming feature collects 0.40-acres of impervious drainage area, and removes an estimated 70,000 gallons annually from the combined sewers.
