

CHIPPEWA CREEK STREAM STABILIZATION NEAR BROADVIEW ROAD

Broadview Heights, OH

CUYAHOGA RIVER SOUTH · CHIPPEWA CREEK

Summary

This project aims to improve stream bed and bank stability by creating a stable cross section and meander pattern. An old, failing stream crossing will be demolished and removed, and the in-stream work will address other bed and bank erosion that is approaching a parallel sanitary sewer and threatening to undermine gabions downstream near Broadview Road.
