

MINNIE CREEK NEAR BAGLEY ROAD FLOOD REDUCTION

Olmsted Township, OH

ROCKY RIVER · MINNIE CREEK/BUSBY DITCH

Summary

The Minnie Creek near Bagley Road Flood Reduction Project will address several issues within the project area, including flood reduction, culvert and crossing enhancement, and stream restoration. The preferred alternative from the RRSWMP will be evaluated by the selected designer. Other alternatives will also be identified and analyzed during pre-design. All alternatives developed/evaluated during pre-design will need to balance expected Level of Service (LOS) of the RSS within the project area and the cost to reach that LOS, the expected impacts to the surrounding community, erosion/aggradation impacts along Minnie Creek, and water quality impacts of the proposed design concepts.

Project Details

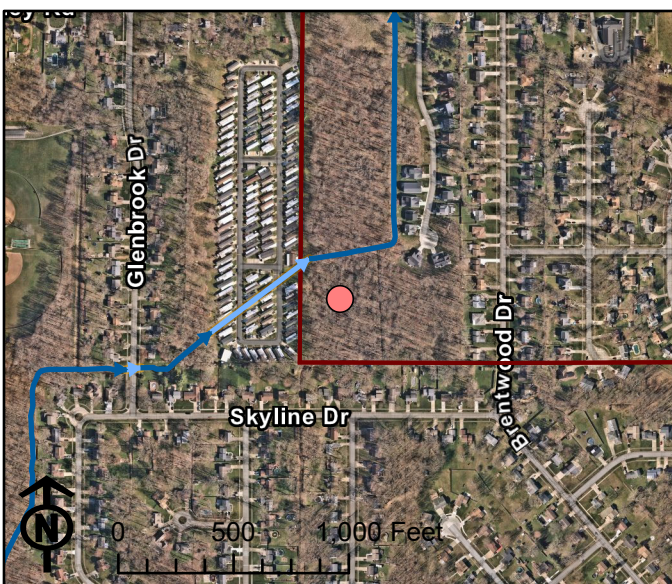

Asset ID(s): MN00018, MN00053, MN00054, MN00055, MN00548, MN00024, MN00108, MN00019, MN00020, MN00547

Contract Type: Design/Bid/Build

Construction Cost: \$5,843,415.00

Anticipated Construction NTP: 3rd QTR 2029

Watershed Team Leader: Nicole Velez (velezn@neorsd.org)
