

DOAN BROOK CONVEYANCE IMPROVEMENT NEAR UNIVERSITY CIRCLE

Cleveland, OH

LAKE ERIE DIRECT TRIBUTARIES · DOAN BROOK

Summary

This project is intended to reduce surface flooding in University Circle and along Martin Luther King Drive. The flooding has been attributed to the limited conveyance of the existing culverted stream that runs along the west side of Wade Lagoon. Alternatives including upsizing the existing culvert along its current alignment and installing a parallel relief culvert will be evaluated. Opportunities to daylight a portion of Doan Brook will also be considered.

Project Details

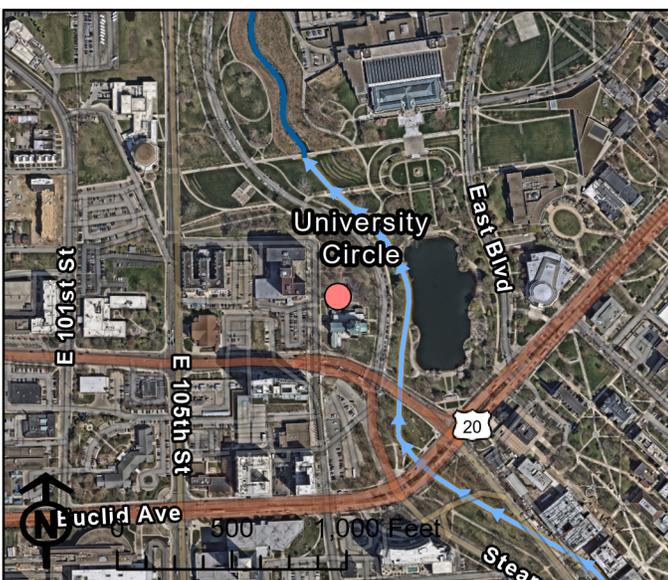

Asset ID(s): DB00180

Contract Type: Design/Build

Construction Cost: \$4,400,000.00

Anticipated Construction NTP: 4th QTR 2027

Watershed Team Leader: Donna Friedman (friedmand@neorsd.org)
