

Dunham Tavern Museum and Gardens Project

Applicant: Dunham Tavern Museum & Gardens

Project Location: 6709 Euclid Avenue, Cleveland Ohio, 44103 | Ward 8

Watershed: Lake Erie Direct Tributaries | Subwatershed: Lake Erie Direct Tributaries East to Cuyahoga River

Summary

- DTMG objectives and outcomes include the removal of as much impervious surface as possible and the construction of a permeable paver GI Grant SCM to capture stormwater runoff from remaining and new impervious areas.
- DTMG objectives and outcomes include the removal of as much impervious surface as possible and the construction of a permeable paver GI Grant SCM to capture stormwater runoff from remaining and new impervious areas.
- DTMG is located adjacent to the Cleveland Foundation headquarters building and the proposed GIG Project will directly connect to an existing NEORSD-funded project on the north side of the Foundation parcel. DTMG will install the same permeable paver system components and connect directly to their vehicular entry court.
- The 7.5-acre area surrounded by Euclid/Chester/E66 and E69 streets will continue to evolve as one of the 'greenest' blocks in the city.

Project Detail

Green Infrastructure (GI) Type: 2024 Design & Construction Project Award

GI Technology: Permeable Pavers

Drainage Area: 0.23 acres

GI Feature Area 0.10 acres

Stormwater Capture: 109,301 gal/yr.

Total Project Cost: \$369,046

Grant Awarded: \$287,326
