

NEORSD Green infrastructure Grant Program for the Combined Sewer Area

## Dunham Tavern Museum and Gardens – Phase II Project

Applicant: Dunham Tavern Museum & Gardens

Project Location: 6709 Euclid Avenue, Cleveland Ohio, 44103 | Ward 7

**Watershed: Lake Erie Direct Tributaries | Subwatershed: Lake Erie Direct Tributaries East to Cuyahoga River**

### Summary

- DTMG objectives and outcomes include the removal of as much impervious surface as possible and the construction of a permeable pavement GI Grant SCM to capture stormwater runoff from remaining and new impervious areas.
- DTMG is located adjacent to the Cleveland Foundation headquarters building and the proposed GI Grant Project will directly connect to an existing NEORSD-funded project on the north side of the Foundation parcel.
- DTMG will install the same permeable pavement system components and connect directly to their vehicular entry court.
- The project site is adjacent to our recently completed Phase 1 improvements funded by NEORSD's GI Grant Program.
- The 7.5-acre area surrounded by Euclid/Chester/E66 and E69 streets will continue to evolve as one of the 'greenest' blocks in the city.

### Project Detail

**Green Infrastructure (GI) Type:** 2025 Design & Construction Project Award

**GI Technology:** Permeable Pavement

**Drainage Area:** 0.23 acres

**GI Feature Area** 0.16 acres

**Stormwater Capture:** 140,246 gal/yr.

**Total Project Cost:** \$250,000

**Grant Awarded:** \$250,000

**Northeast Ohio  
Regional Sewer District**
